AGRICULTURAL ADJUSTMENT ADMINISTRATION

(Continental United States Beet Sugar Order No. 1)

(MARKETING ALLOTMENTS TO PROCESSORS OF THE QUOTA FOR THE CONTINENTAL UNITED STATES BEET-SUGAR-PRODUCING AREA)

ORDER MADE BY THE SECRETARY OF AGRICULTURE UNDER THE AGRICULTURAL ADJUSTMENT ACT

UNITED STATES DEPARTMENT OF AGRICULTURE, OFFICE OF THE SECRETARY.

By virtue of the authority vested in the Secretary of Agriculture by the Agricultural Adjustment Act, approved May 12, 1933, as amended, I, H. A. WALLACE, Secretary of Agriculture, having due regard to the welfare of domestic producers and to the protection of domestic consumers and to a just relation between the prices received by domestic producers and the prices paid by domestic consumers, in order to effectuate the declared policy of the said Act, do make, issue, publish, and give public notice of this order with the force and effect of law, to be in force and effect until amended or superseded by orders or regulations hereafter made by the Secretary of Agriculture.

I do hereby find that the marketing of sugar manufactured from sugar beets produced in the continental United States beet-sugar-producing area is in the current of, or in competition with, or affects, interstate or foreign commerce and that the marketing thereof in excess of the quota of 1,556,166 short tons raw value would burden and obstruct such interstate or foreign commerce.

Out of the quota of 1,556,166 short tons of sugar, raw value, (29,087,200 one hundred pound bags of refined sugar), fixed by me for the United States beet-sugar-producing area in General Sugar Quota Regulations, Series 1, there is hereby allotted, for the calendar year 1934, to the processors named below, the quantities which appear after their respective names. During the calendar year 1934, until my further order, all processors are forbidden from marketing, in continental United States, for consumption therein, sugar manufactured from sugar beets produced in the continental United States beet-sugar-producing area, in excess of the following allotments:

Name of Processor	Allotment, 100-pound bags, direct-consumption sugar
Amalgamated Sugar Co.....	1, 989, 128
American Beet Sugar Co.....	2, 885, 242

Great Lakes Sugar Co.....	584, 725
Great Western Sugar Co.....	9, 597, 193
Gunnison Sugar Co.....	194, 304
Holly Sugar Corp.....	3, 676, 497
Isabella Sugar Co.....	287, 362
Lake Shore Sugar Co.....	66, 940

Utah-Idaho Sugar Co.....	2, 878, 328
West Bay City Sugar Co.....	147, 015
Total.....	28, 639, 164

Such allotments have been computed by doubling the average beet sugar output of all factories in the continental United States beet-sugar-producing area now controlled by a processor, for the years 1932 and 1933, inclusive, by adding thereto the average output of such factories for the years 1929-1933, inclusive, and by dividing the resulting sum by three. Where a processor did not process beets during all of the years of either the two-year or the five-year period, the average beet-sugar output for such period has been obtained by dividing the total beet-sugar output of such period by the number of years in which beet sugar was produced by that processor during such period.

From the quota of 1,556,166 short tons raw value, or 29,087,200 one-hundred-pound bags of refined sugar, there remains a reserve of 448,036 one-hundred-pound bags of refined sugar for further allotment.

Whenever any processor considers himself aggrieved because of any allotment theretofore made to him or to any other processor, or because he has received no allotment, he may make application in writing, under oath, to the Secretary of Agriculture for the adjustment of such allotment theretofore made, or for an allotment, which application shall fully set forth the reasons therefor and data in support thereof.

Whenever, after notice and opportunity for hearing, as provided in applicable regulations of the Secretary of Agriculture, the Secretary finds that any processor to whom an allotment has been made has failed to establish and maintain a just relation between the price paid by him to producers of sugar beets and the price received by him for sugar manufactured therefrom, and that such failure to establish and maintain such just relation is a material factor in preventing the maintenance of a just relation between the prices received by domestic producers and the prices paid by domestic consumers, and determines what would be a just price for such processor to pay such producers, and finds that such processor has failed to establish, within a reasonable time thereafter, or to maintain such price, the Secretary will adjust or revoke the allotment to such processor in such manner as will effectuate section 8a (1) of the Agricultural Adjustment Act.

In testimony whereof I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington this 26th day of July 1934.
